

# Specialty Drug Alternate Funding Solution

## from Custom Design Benefits & Magellan Rx

As specialty pharmacy costs have risen over the past 10 years, health care plans have been challenged to balance access to specialty drugs with the cost of the those drugs.

The alternative funding market emerged to help solve this problem by providing access to:

- ✓ \$20 billion in funding solutions from private and public foundations, and state, county and municipal programs
- ✓ Over \$10,000 programs with funds to pay for medications
- ✓ 500+ (almost all) specialty drugs

### **The Solution: An Integrated Approach**

Our alternate funding solutions integrates our prior authorization with RxResults' clinical expertise and Magellan Rx with Paydhealth's consultative advocacy. Results show potential for up to 50% in savings. Our solution:

Advocates and case manages the financial aspects of the specialty drug funding

Benefits members with chronic diseases

Provides access to care under the normal process members use today

Maintains coverage for specialty drugs without using exclusionary language - preserves stop-loss policy coverage

Includes plan document language that does not reduce the value of the benefits - maintains ACA compliance

**Contact Custom Design Benefits** to learn more about our alternate funding program for select specialty medications.
